Steamship Sheridan, Carrying the Tennessee Soldiers.

Arrived in San Francisco Wednesday—
Maury County Boys Among the Number.

Special to the Herald.

SAN FRANCISCO, Feb. 6.—The steamship Sheridan, carrying the Thirty-seventh United States Volunteers, returning from the Philippines, arrived at San Francisco today. In this regiment are members of Col. Cheatham's battalion of Tennessee soldiers, among the number being several Maury county boys.

The boys who enlisted in this regiment from this place are: First Lieut. Robt. O. Ragsdale, Ed. Dodson, Norman Batts, Charley Notgrass, Will Overton, Lem Strong, Lee Pond, Gano Spurlin, and James B. Spencer. T. F. Russell, of Hickman county, who also enlisted here, died some time ago in the Philippines.

A small wreck occurred last Friday on the N. E. & S. road near Iron City. One or two cars were derailed, but no body was hurt.

Motion Overruled.

In the Circuit Court last Friday a motion was made to quash the indictment against Will Davis, colored, on the ground that Mr. John T. Akin, foreman of the grand jury, who had signed the indictment, had served on the regular jury in less than two years, and was therefore an incompetent juror. Judge Holding overruled the motion, however, and Mr. Akin, who has made an efficient officer, was allowed to remain on the jury. Mr. Akin served on the jury in February, 1899, and afterwards the law was changed so as to make court convene here in January in place of February. So, at the beginning of this term of court, it had been almost two years since he had served, or, to be more accurate, twenty three months. When asked as to whether he had served within two years, he very naturally overlooked the change in the law and replied no—a mistake that almost anybody else would have made.

Maury County Teachers.

The Maury County Teachers Association met in regular monthly session at the Public School building, Saturday Feb. 2, 1901.

The subject of School Entertainments brought forth a lively discussion, and the consensus of opinion seemed to be that in towns at least entertainments are less profitable, but that in many country districts, owing to the dearth of amusement, they served the double purpose of helping pupils and interesting the patrons of the school. At any rate, they should be made as a means and not as an end.

The question of a Teachers' Normal at Columbia, in the summer, was discussed, and members of the Committee who attended the meeting of the Public School Officers' Association in Nashville, reported that in all probability it could be secured if sufficient interest were manifested.

The programme for the next meeting of the M. C. T. A. is as follows:—
Paris Exposition—Miss Anderson.
Quiz Class on Current Topics, conducted by Mr. J. A. Boettick.

Debate—"Is a boy ever justifiable in fighting on the school grounds?" Leaders Mr. E. A. Ragsdale, Mr. J. A. Fitzgerald.

HOT BRICKS.

Soap Stones, Woolen Cloths or Flat Irons do in part what a HOT WATER BOTTLE does perfectly. Heat helps pain, any kind, anywhere. But the application of it is always clumsy and largely ineffective unless you have the modern appliance.

The soft, yielding HOT WATER BAGS maintain an even temperature for hours. We have them in best quality and all sizes.

STRUCK BY A TRAIN.

A Negro Has a Miraculous Escape Near Dodson's Gap.

Harrison Abernathy, colored, of Lynyville, had a miraculous escape from instant death near Dodson's Gap Friday morning. As north-bound freight train No. 8 was nearing the gap the engineer saw a man on the main track a short distance in front. He blew the whistle several times, but failed to attract the man's attention until too late. Abernathy was struck by the engine and thrown fifteen or twenty feet, and was picked up insensible, but, strange to say, escaped with only several broken ribs and some painful cuts and bruises about the head face and arms.

LATE NEWS ITEMS.

PRIVATE Benjamin T. Taylor, of the 37th regiment, returning from the Philippines, died of pneumonia as the Sheridan entered the bay at San Francisco. Taylor was from Waverly, Tenn., and formerly belonged to the First Tennessee. Five Tennessee officers remained in Manila on special service, and will stay in the army until June 30. They are Capt. Myers and Richmond, Lieuts. Chapman, Vaughn and A. K. Baskette. Tennessee officers returning are Col. B. F. Cheatham, Capt. Van Leer and Givens, Lieuts. Bright, Patton, McLeister, Ragsdale, Pilcher, Walker, Cass and Aiken.

THE greatest of all the trusts, with a capitalization of a billion dollars, is now regarded as an actuality. The banking house of J. P. Morgan & Co. and several other allied interests are believed to have purchased from Andrew Carnegie control of the Carnegie Steele Company. The deal also includes all the leading iron and steel companies of the United States. Official confirmation is lacking, but no denial has come from any interested person.

MRS. CARRIE NATION and six other women, at Topeka Monday, made an attack on a restaurant in which liquor is dispensed. They were met at the door by the keepers of the restaurant, and free-for-all scuffle ensued, out of which a number came with bloody noses. Mrs. Nation was arrested on the charge of disturbing the peace.

FIELD FOR PATRIOTISM.

Why Should We Go Abroad to Study Medicine?

In a recent lecture in London Dr. Osler is reported to have said that before many years the European medical student would be found spending his year or two of post-graduate study in the United States. If men governed their actions by the logic of facts, says the Philadelphia Medical Journal, we could not doubt the fulfillment of the prophecy. We certainly believe that, except for other purposes than practical medical scientific work, the American student can do better now than to go abroad. Few realize what tremendous progress has recently been made in our home clinics, and in many respects how far superior they are to the foreign ones. In one department of medicine—dentistry—American superiority is universally admitted. At the present rate of advance it will become true of other specialties. In ophthalmology it is positively ridiculous to think of an American oculist learning anything of value elsewhere than at home, and we wish the European masters would come to our own ophthalmic kindergartens. Ex oriente lux has been the law of science up to the present time, but the extreme West having been reached by the light of civilization, there is nothing left but a reflex or a reversal of the law, and in many things besides medicine the illustrations are multiplying fast. Principles and theories are valueless except for realization and translation into facts. We may have been taught, we may still be taught, the theoretic principles of our art, but in their practical application we are the better teachers. It is in no spirit of boastfulness that we speak, but to encourage our profession to perfect the science, and especially the art, the practice or the mechanics of medicine—a work in which we are exceptionally fitted to excel. Here is a most legitimate field for patriotism.—New York Press.

Westminster Abbey Crumbling.

Considerable alarm is expressed in England over the discovery that the stone work of Westminster abbey is so badly rotted in some places that only a touch of the finger is needed to make it crumble into dust. This condition has been brought about by acid fumes from the famous Lambeth potteries. These fumes are largely produced by hydrochloric acid and measures are being considered looking to a remedy for the trouble.

HAZING AT WEST POINT.

Legislation for Its Suppression in the Military Academy Appropriation Bill.

PLAIN, STRAIGHTFORWARD WORDING.

A Provision for Summary Expulsion of Any Cadet Found Guilty of Participating Encouraging or Countenancing Hazing, Without Hope of Reinstatement.

Washington, Feb. 6.—In the senate, after the disposition of routine business, consideration of the military academy appropriation bill then was resumed, the pending question being the amendment offered by Mr. Allen (Neb.), providing that cadets upon entering the academy should take an oath not to engage in hazing, and if found guilty be dismissed from the academy and not be eligible thereafter to hold a position either in the army or in the navy of the United States.

Mr. Sewell (N. J.), in charge of the bill, opposed the amendment, maintaining that the provision against hazing in the bill was sufficient.

In supporting the amendment, Mr. Allen asserted that the brutal practice of assaulting another who was his junior had been carried to a ridiculous extent at the military academy, and he believed it would never be broken up until the most rigid measures were taken in good faith to put an end to it.

After further discussion Mr. Allen withdrew his amendment, and offered some amendments making stronger the phraseology of the committee's amendment relating to hazing.

As agreed to, the hazing paragraph reads as follows:

"That the superintendent of the military academy shall make such rules, to be approved by the secretary of war, as will effectually prevent the practice of hazing; and any cadet found guilty of participating in or encouraging or countenancing such practice, shall be summarily expelled from the academy, and shall not thereafter be reappointed to the corps of cadets or be eligible for appointment as commissioned officer in the army or navy."

The bill as amended then was passed.

Mr. Aldrich (R. I.) called up the war revenue reduction bill and it was read.
